

Project #4: Modernism After the War, 1920+

Due Thursday 7/2

For this project you will work individually to add to the timeline what you consider to be important items in magazines during the post-War period, and to write a 2-3 paragraph blog post about them. You are totally free to cover whatever topic(s) in whichever magazine(s) you wish from the six listed below, and from the year 1920 and after.

- *Coterie*
- *The New Age*
- *The Owl*
- *Poetry*
- *The Tyro*
- *Wheels*

Your post should be tagged in the Category field with the term Post-War, plus any others that are relevant, including author(s), genre(s), and the other kinds of themes we've been discussing.

Your blog post should be unified like an essay, with a clear thesis statement, and use of evidence by way of quotation and linking to the page-images of any items you discuss in detail. Each person should aim to enter at least 3-5 items on the timeline.
